DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I claim(s) 1-5, drawn to a method of producing a plastic film by extruding and orienting by stretching.

Group II claim(s) 6-13 drawn to an apparatus which produces a plastic film by extruding and orienting by stretching.

Group III claim(s) 14-17, drawn to a plastic film made by extruding and stretching in order to orient the film.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: because claim 1 of the instant case does not constitute a contribution as even discussed by applicant in his citation of US patents and the EP patent cited on page 1 of the specification.

3. A telephone call was made to Mr. Benoit Castel on Aug. 15, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.
